Idaho
DAIRY COUNCIL

The Idaho Dairy Council is pleased to sponsor the School Milk Cooler Grant Program. The program is made possible through funding from the United Dairymen of Idaho.

Milk tastes best when it is cold and fresh. A proper cooler plays a role in creating the ideal situation for schools to serve cold, fresh milk. The grant program is designed to help those schools with limited resources obtain a milk cooler.

If you have any questions about the program or the application, please feel free to contact Caroline Morse at 208-327-7050 or at cmorse@idahodairycouncil.org.

School Milk Cooler Grant Program

What	The Idaho Dairy Council (IDC) administrates the School Milk Cooler Grant Program with funds from the United Dairymen of Idaho.
Why	Many kids who don't drink school milk might choose milk if it were served cold, and if a variety of types and flavors were offered, and if it always tasted fresh.
Who	Anyone who participates in the National School Lunch Program is eligible to apply.
Requirements	1. Schools must be willing to complete a post evaluation sheet. 2. Schools must be willing to care properly for the cooler, including cleaning the condenser monthly. 3. Schools are responsible for service calls made on the milk coolers that are out of the one-year parts and labor warranty.
Guidelines	1. It is encouraged that schools serve at least two flavors of milk in addition to white milk. 2. Schools should have a need for a milk cooler. 3. Schools should handle milk properly, to ensure that it will be fresh upon arriving in the cooler, and when served to the students.

School Milk Cooler Grant Application

School District_____ School_____

Contact Person_____Title_____

Phone _____ Summer Phone #_____

Email_____

Address_____

City_____ State_____ Zip_____
